

Cover Mouldings

The cover moulding is the final touch of finishing — a detail that brings a sense of completeness to the room.

Our mouldings are lightweight, durable, and easy to install. They are perfect for new developments, renovated homes, cottages, and offices alike.

Installation

For best results, we recommend installing with glue and nails. Alternatively, tape can be used.

Material

Primed MDF – profiles have a smooth surface, are stable, and ready for painting, offering a cost-effective and high-quality finish.
